Placement test

On this page you will find the placement test, which determines your level of proficiency based on a series of sub-tests.

What to do:

- Go to "Certificate of registration" and upload your certificate of registration if you have already received it.
- Begin with test DAF A1.1
- If you answer 75% of the questions correctly, you have to open and complete the next test.
- Complete the tests in the following order: A1.1, A1.2, A2.1, A2.2, B1, B2, C1
- If you answer less than 75% of the questions correctly in a given test, you will not be able to open the next test. This will mark the end of the placement test.

Please complete the test without consulting any resources (e.g. dictionaries) and end the test if you are no longer sure of your answers. This will help to make sure you are assigned to the right level.

Once you have completed the test, you may join a course corresponding to your level. To register for a course, please return to this page.

As a rule, one course place is offered each semester. Requests for second course places are only considered if there are unfilled places in the first week of a course. If you have any questions, please contact the Omara at info.aes@unibe.ch.
